

TURF-TYPE TALL FESCUE

Titan Max

Grows in sun and shade.

Fights common turf diseases.

Dense, durable turf for increased playability.

Get a legendary lawn.

For over 30 years, homeowners and professionals alike have come to trust Titan tall fescues for beautiful, durable turf, even in harsh and demanding conditions. Bred for improved resistance, heat and cold tolerance, and active play, Titan Max continues that tradition. From Coast-to-Coast, Titan Max delivers attractive eye-catching, dark-green, dense turfgrass adapted to all cool season regions.

Turfgrass Quality By Season

NTEP Trials| 2018-2023 | Multiple Locations

Variety	Spring	Summer	Fall	Winter	Average
Highest Score	6.3	6.3	6.5	5.6	
Titan GLX	6.3	6.2	6.4	5.4	6.1
Titan Max	6.2	6.1	6.3	5.2	6.0
Fairfield	5.9	5.8	6.0	5.0	5.7
Gro-Pro	5.8	5.7	5.8	5.0	5.6
Lowest Score	4.4	4.3	4.2	4.2	
LSD	0.1	0.1	0.1	0.2	

1-9; 9=best quality

Disease Meets It's Match

Titan Max looks beautiful in part due to improved disease resistance, including gray leaf spot, Pythium blight, brown patch, pink patch, pink snow mold, Typhula blight, and red thread.

Brown Patch Resistance

NTEP | 2018-2023 | Ave. 10 Locations

Variety	Resistance
Highest Score	6.9
Galactic	6.5
Titan Max	6.5
Gro-Pro	6.0
Fairfield	5.6
Lowest Score	4.6
LSD	0.5

1-9; 9=no disease

Gray Leaf Spot Resistance

NTEP | 2018-2023 | New Jersey

Variety	Resistance
Highest Score	8.2
Titan Max	**7.2**
Gro-Pro	7.0
Galactic	6.5
Fairfield	5.7
Lowest Score	4.3
LSD	0.8

1-9; 9=no disease

Got Shade? No problem.

While all grasses need sunlight, Titan Max is capable of handling extra shade from mature trees and shaded areas.

Durable, Dense & Playable

Titan Max is a great choice for athletic fields, backyards, and other areas where traffic tolerance is needed. Titan Max's combination of turf density and fine blade width not only add to its attractiveness but also reduce weed infestation and increases playability.

Need close-cut turf? Titan Max boasts the ability to withstand consistent cutting as low as 1.5". While it is still recommended for most applications and locations to maintain a higher cutting height, such as 3-4", turf trials at Blacksburg, VA rated Titan Max as one of the best for continuous close cutting.

Traffic Tolerance & Turf Density

NTEP Trials | 2018-2023 | Ames, IA

Variety	Traffic Tolerance Rating	Turf Density Rating
Highest Score	6.5	6.7
Gro-Pro	6.4	6.1
Titan Max	**6.3**	**6.5**
Fairfield	6.3	6.3
Galactic	6.3	6.4
Lowest Score	5.9	5.3
LSD	0.3	0.3

1-9; 9=best quality - Traffic Tolerance, 1-9; 9=maximum density - Turf Density
